and Leigh's Time-Life Bibliography:

There are 177 English sets listed. Some indexes are listed as a "+" on some sets if it wasn't bound to match the rest of the set. These are easily separated and lost from otherwise complete sets and I felt needed to be noted. There are question marks after numbers that Mr. Legg and I disagreed on, or I think it possible I may have missed other titles as well for those sets, so take those numbers with a degree of skepticism. As always, if you have questions or can provide additional information, you can contact me directly: akamoraih@gmail.com Complete listings of the titles with what bib details I could find are

available on my Time-Life Bibliography page.
